

Independent Study in Drawing

MICHAEL LAS CASAS

The class is an open format to drawing and using different mediums of the students choice, including color. The student will choose what medium they wish to learn and I will direct them, individually, the correct way, and different avenues that particular medium will allow. I will also give you challenges to explore and expand your skills. You will learn the importance of value, line, and composition to help you grow in your skills and techniques.

Basic supplies list: Drawing paper, set of pencils, kneaded eraser, and gum eraser.

I will discuss with each student what materials they will need, depending on their choices.
